PROFILE

Senior industrial designer with 9+ years of experience developing consumer products from early research and strategy through mass production. Focused on expressive, approachable design across consumer electronics, hardgoods, softgoods, and jewelry, with deep experience in audio products, CAD, visualization, ergonomic validation, and DFM.

EXPERIENCE

SKULLCANDY INC. SENIOR INDUSTRIAL DESIGNER

2019 - PRESENT

- + Lead industrial design across over-ear headphones, true wireless earbuds, gaming headsets, and accessories for a global consumer audio brand.
- + Own projects from research and strategy through sketching, CAD, prototyping, visualization, fit and acoustic validation, DFM, and mass production.
- + Collaborate with CMF, mechanical, electrical, firmware, acoustics, program management, and CG teams to ship multiple product generations on lean teams and fast timelines.
- + Translate complex technology into approachable product experiences through tactile controls, ergonomic fit systems, visible structures, and expressive material stories.

FREELANCE INDUSTRIAL DESIGNER / CONSULTANT

2020 - PRESENT

Design and development across softgoods, jewelry, automotive accessories, and visualization for clients including Shyft Global, Chums, Kizik, and Ikaika.

OOBLEC LLC INDUSTRIAL DESIGNER

2017 - 2018

Developed consumer products from concept through prototyping and manufacturer handoff, spanning inflatables, furniture, and audio equipment.
